**Artwork's AutoCAD add-on speeds package design for ball-grid arrays**

November 22, 1999  
**Word Count: 440 (USE FORMAT 7 OR 9 FOR FULLTEXT)**

( Artwork Conversion introduced Bondgen, a **software** program that creates wire-bond documentation from package chip designs )

## TEXT:

...the Bondgen module running inside AutoCAD. It reads the ASCII file and does the wire-**bond** drawing.

Beyond drawing

In addition to creating the drawing, **Bondgen** has a routing for numbering and labeling the **bond** fingers. The user can control the label contents, label orientation and size.

**Bondgen** also performs design-**rule** checking (DRC) for each wire. Any wires that are too long, too close to another wire or whose angle is not valid are **flagged** in a DRC report.

The program creates **bonding** tiers for off-line programming so assemblers can program wire bonders from a PC. To...

**ABSTRACT:**

...next six months or so, though, Computer Associates plans to modify the ICL software to **share** Unicenter's user interface and to work more closely with Unicenter functions. The new capabilities include CA-Unicenter/DB **Alert** and CA-Unicenter/Systems **Alert**, both of which let systems administrators set thresholds at which certain conditions will set off warning **alarms** or **trigger** automatic action to correct a looming problem.

**TEXT:**

...next six months or so, though, Computer Associates plans to modify the ICL software to **share** Unicenter's user interface and to work more closely with Unicenter functions.

The new capabilities include CA-Unicenter/DB **Alert** and CA-Unicenter/Systems **Alert**, both of which let systems administrators set thresholds at which certain conditions will set off warning **alarms** or **trigger** automatic action to correct a looming problem.

Gupta told Newsbytes these features go beyond what...

**A crash course for online investors**

May 24, 1999

**A crash course for online investors**

**Abstract:**

...have been sidswiped by volatile markets, technical glitches at online brokerage firms and fraudulent Net **investment** schemes. And **alarmingly**, many simply do not know the **rules** of the cyber-road. Some guidelines for online investors are: 1. Get the facts. 2...
